

# SchoolLink™

to BEHAVIORAL HEALTH SERVICES | access • communicate • connect

## Spotlight

**DECEMBER 2018**

- Customize the **SchoolLink Referral Form** for your school(s).
- Distribute the **SchoolLink Referral Form** to school staff.
- Follow the referral process in your **Annual SchoolLink Plan**.

SchoolLink providers rely on student referrals from school staff. The new SchoolLink training provides helpful information about how to set up a standardized referral process using the SchoolLink Referral Form.

Encourage your school staff partners to review the [SchoolLink training module on referrals](#) as well so they understand the required referral, assessment and consent process to enroll students in SchoolLink services.

Please contact your supervisor with any questions. The County COR is also available to provide Technical Assistance through your Program Manager.

**Thank you for all that you do for San Diego kids!**
