INTRODUCTION

THE ACADEMY FOR PROFESSIONAL EXCELLENCE

We are pleased to welcome you to the APS Case Documentation and Report Writing Participant Manual, developed by APSWI (Adult Protective Services Workforce Innovations), a program of the Academy for Professional Excellence under a grant from the California Department of Social Services, Adult Programs Division.

The Academy for Professional Excellence, a project of San Diego State University School of Social Work, was established in 1996 to provide exceptional workforce development and organizational support to the health and human services community by providing training, technical assistance, organizational development, research, and evaluation. Serving over 20,000 people annually, the Academy continues to grow with new programs and a diversity of training focused on serving the health and human services community in Southern California and beyond.

The Academy is a project of San Diego State University School of Social Work (founded in 1963), which offers both a bachelor's and master's degree in Social Work. The School of Social Work at San Diego State University was founded in 1963 and has been continuously accredited by the Council of Social Work Education since 1966.

APSWI (Adult Protective Services Workforce Innovation) is a program of the Academy for Professional Excellence. APSWI is designed to provide competency-based, multidisciplinary training to Adult Protective Services professionals and their partners. APSWI's overarching goal is the professionalization of Adult Protective Services professionals to ensure that abused and vulnerable older adults and adults with disabilities receive high quality, effective interventions and services. In partnership with state and national organizations, APSWI has developed a nationally recognized Core Competency Training Curriculum for Adult Protective Services professionals. This curriculum is reviewed and approved by experts in the elder and dependent adult abuse fields.

APSWI's partners include:

- National Adult Protective Services Association (NAPSA) Education Committee
- California Department of Social Services (CDSS), Adult Programs Division
- County Welfare Directors Association of California (CWDA), Protective Services Operations Committee (PSOC)

EXECUTIVE SUMMARY

Course Title: *APS Case Documentation & Report Writing*

Outline of Training:

In this engaging and highly interactive introductory training, participants learn the necessary and essential components of effective documentation and report writing. Participants will understand the purpose of competent documentation; demonstrate the use of clear, concise, and objective language; learn memory improvement techniques; understand confidentiality as it relates to documentation; and demonstrate written case documentation skills through an interactive skills practice exercise.

The following instructional strategies are used: lecture segments; interactive activities/exercises (e.g. small group discussion, experiential exercise); question/answer periods; PowerPoint slides; and video clips.

Target Audience:

This course is designed for new APS professionals as well as Aging & Adult Service partners (e.g. APS/IHSS, IHSS). This training is also appropriate for senior staff that require knowledge and/or skills review.

Outcome Objectives for Participants:

Learning goals - Upon completion of the training, participants will be able to:

1. Describe the purpose of accurate, complete and timely documentation.
2. Demonstrate the use of clear, concise, and objective language.
3. Identify four types of equipment used to document and their uses.
4. Discuss the importance of accurate recall and identify at least three memory improvement techniques.
5. Discuss confidentiality as it relates to documentation.
6. Discuss documentation needed for court including statements, evidence, and language.
7. Analyze and rewrite an APS report.

Transfer of Learning: *Ways supervisors can support the transfer of learning from the training room to on the job.*

BEFORE the training

Supervisors can encourage line staff to attend the training and help them identify particular strengths and/or challenges that they have had with

documentation in the past. Training participants can share these experiences during training.

AFTER the training

Supervisors can read the training executive summary and instructions for out-of-class transfer of learning activity. Supervisor and training participant will then schedule a time to complete the activity together – at this point trainee can share what specific skills they obtained from the training. If further staff involvement is available, trainee may present an overview of what was learned to other staff members to encourage collaboration and a culture of learning.

Welcome and Housekeeping

- Location of restrooms
- Set cell phones to vibrate
- Please return promptly from breaks and help us keep to the schedule
- Materials
 - PowerPoint Slides
 - Participant Materials

Introductions

- Participants
 - Name, agency, assignment
 - Favorite, Frustration, or Fear with documentation
- Instructor

Learning Objectives

- Describe the purpose of accurate, complete and timely documentation.
- Demonstrate the use of clear, concise, and objective language.
- Identify four types of equipment used to document and their uses.
- Discuss the importance of accurate recall and identify at least three memory improvement techniques.
- Discuss confidentiality as it relates to documentation.
- Discuss documentation needed for court including statements, evidence, and language.
- Analyze and rewrite an APS report.

Documentation Oops!

"Client was alert and unresponsive."

"Healthy appearing decrepit 69 year old male, mentally alert but forgetful."

"Discharge status: Alive but without permission."

"She slipped on the ice and apparently her legs went in separate directions in early December."

"When she fainted, her eyes rolled around the room."

"By the time he was admitted, his rapid heart had stopped, and he was feeling better."

Documentation Self-Assessment Activity

You are Natalie Jones, the APS Professional in the video.
It's Tuesday, June 24 2019, and you arrive at the home of your initial home visit at 0940.

APS Case Documentation Framework

"The test of a good APS Case Record is when any reasonable and prudent person can read and review the record and draw his/her own conclusion as to what occurred, based on interview statements and supportive evidence."

- CWDA APS Guidelines to Supplement Regulations, 2.7: Guiding Principles for APS Case Documentation

Policy and Practice in California 

- **APS Case Record Requirements**
 - CA Welfare & Institutions Code 15630-15632
 - CDSS Manual of Policies & Procedures 33-805
- **Handout #1**
 - Guiding Principles for APS Case Documentation
 - CA APS Standards for Consistency in Case Documentation 2015

Excerpt: APS Case Record Requirements

- CA Welfare and Institutions Code 15630-15632 – Requires any mandated reporter to document any incident that appears to be physical abuse (including sexual abuse), abandonment, isolation, abduction, financial abuse, or neglect (including self-neglect, which is defined under Neglect). See definitions under W&IC 15610 to 15610.70.
- CDSS Manual of Policies and Procedures 33-805 – Case Record Requirements:
 - SOC 341 Form- Report of Suspected Dependent Adult/Elder Abuse
 - All written assessments and reassessments.
 - The written service plan.
 - Any written visitation plan.
 - The chronological narrative of contacts made with, or on behalf of, the elder/dependent adult.
 - Documentation of any refusal of services including, if known, the reasons for refusal.
 - Copies of all documents, relating to the client, which have been received or sent by the adult protective services agency.
 - Case closure summary.
 - Documentation of all supervisory approvals.
 - Any other information or documents that APS believes necessary to maintain proper record of client’s case.

-Source: CWDA APS Guidelines to Supplement Regulations, 2.7: Guiding Principles for APS Case Documentation- https://www.cwda.org/sites/main/files/file-attachments/aps_guidelines_to_supplement_regulations_-_version_1.9.pdf

What is the Purpose of Documentation?

Purpose of Documentation

- Detailed and reliable case history, baseline data
- Evidence for involvement – APS and/or legal
- Accountability and liability
- Professionalism
- Consistency
- Justification for staff and funding for program
- Other?

The Bottom Line...

Documentation demonstrates the hard work that APS engages in!

- You are in this “business” to help and protect vulnerable people
- To do this, you must build relationships AND build a case
- To build an effective case, you must document
- Documentation is an integral part of the helping relationship

Things to Consider...

- Who will read it?
- Where will it end up?
- How long will it take?
- Who benefits?

Standards for Documentation Overview

		
Accurate/ Factual	Complete	Timely

Accurate Documentation

- Dates & Time
 - Visit, phone call, contact, referrals
- Names , relationships, titles, ranks
 - Family, significant others, medical, law enforcement
- Language
 - Word usage
- Spelling
 - Issues with "spell check"

Handout #2- Commonly Confused Words

Device (contrivance)	Imply (hint)
Devise (invent)	Infer (take a hint)
Precedence (priority)	Principal (chief)
Precedents (examples)	Principle (tenet)
Disburse (pay)	Raise (transitive)
Disperse (scatter)	Rise (intransitive)
Emersion (act of appearing)	Sewage (waste)
Immersion (act of dipping)	Sewerage (drain system)
Eminent (distinguished)	Spacious (full of room)
Imminent (about to happen)	Specious (misleading)
Some time (period of time)	Species (classification)
Sometime (point of time)	Personal (individual)
Sometimes (at times)	Personnel (staff)
Stationary (not moving)	Track (course, path)
Stationery (writing paper)	Tract (region)
New (recent)	Than (compares)
Novel (unusual)	Then (refers to time)
Leave (go away)	Fortunate (lucky)
Let (permit)	Fortuitous (accidental)
Flaunt (display boastfully)	Lie/lay/lain (intransitive)
Flout (scoff at)	Lay/laid/laid (transitive)
Perquisite (privilege)	There (place)
Prerequisite (requirement)	Their (possessive "they")
Practical (useful)	Perspective (view)
Practicable (able to be used)	Prospective (expectant)
Complacent (self-satisfied)	Effective (producing desired effect)
Complaisant (eager to please)	Affective (arousing emotions)
	Compliment (flattering remark)
	Complement (goes well together)

HANDOUT #3 – Common APS Abbreviations and Acronyms

This document was created by the APS Training Project - Bay Area Academy/SFSU for the APS Case Documentation & Report Writing training - June 2008 with contributions from Southern CA Curriculum Advisory Committee- May 2019

A:

AAA – Area Agency on Aging
AD – Alzheimer’s disease
ADD – Attention Deficit Disorder
ADA – Americans with Disabilities Act
ADC – Adult Day Care
ADHC – Adult Day Health Care
ADL – Activities of Daily Living
AIDS – Acquired Immune Deficiency Syndrome
ALANON – Alcoholics Anonymous Support for Families/Friends
ALS – Amyotrophic Lateral Sclerosis
AMA – Against Medical Advice
AP – Alleged Perpetrator
Approx. – Approximately
APS – Adult Protective Services
ASHD – Arteriosclerotic Heart Disease

B:

B&C – Board & Care
BDI – Beck Depression Instrument
BP – Blood Pressure
BRO – Brother
Bid/b.i.d. – Twice Daily/Two Times a Day
bx – Behavior

C:

CA – Cancer
CAD – Coronary Artery Disease
CCL – Community Care Licensing
CG – Care Giver
CHF – Congestive Heart Failure
CI – Court Investigator
CNA – Certified Nursing Assistant
COPD – Chronic Obstructive Pulmonary Disease
CVA – Cerebrovascular Accident (stroke)
CL – Client
CM – Case Manager/Case Management

D:

DA – District Attorney
d/c – Discontinued, discharged
DD – Developmentally Disabled
DIL – Daughter-in-law
DJD – Degenerative Joint Disease
DM – Diabetes Mellitus
DNR – Do Not Resuscitate
DOB – Date of Birth
DPOA/HC – Durable Power of Attorney/Health Care
DSG – Dressing
DTR – Daughter
DV – Domestic Violence
DX or dx – Diagnosed/Diagnosis

E:

EDRT – Elder Death Review Team
EFV – Emergency Food Vouchers
EMT – Emergency Medical Team
ESRD/ERD – Endstage Renal Disease
ETOH – Alcohol

F:

FA – Father
F.A.S.T. – Financial Abuse Specialist Team
FD – Fire Department
FTF – Face to Face
f/u – Follow Up

G:

GDS – Geriatric Depression Scale
GI – Gastrointestinal
GP – General Practitioner
GSW – Gun Shot Wound
GRDDTR – Granddaughter
GRDS – Grandson
GYN – Gynecology

H:

HA – Housing Authority
HBP – High Blood Pressure
HH – Home Health
HIPAA – Health Insurance Portability and Accountability Act

HIV – Human Immune Virus
HUSB – Husband
HOH – Hard of Hearing
HTN – Hypertension (High Blood Pressure)
HV – Home Visit
H&W – Health & Welfare
Hx – History

I:

IADL – Instrumental Activity of Daily Living
IHSS – In-home Supportive Services
ILP – Independent Living Program
IM – Intramuscular
IV – Intravenous
IR – Incident Report/Immediate Response
I&R – Information and Referral
IQ – Intelligence Quotient
INCL – Include/Including/Inclusive
INEL – Ineligible
INFO – Information
INIT – Initial

L:

L – Left
LPS – Lanterman, Petris, Short
LTC – Long Term Care
LE – Law Enforcement

M:

MC – MediCal
MCT – Mobil Crisis Team
MDT – Multi Disciplinary Team
meds – Medications
MH – Mental Health
MI – Myocardial Infarction
MMSE – Mini Mental Status Exam
MO – Mother
MOCA – Montreal Cognitive Assessment
MOW – Meals-on-Wheels
MR – Mental Retardation
MS – Multiple Sclerosis
MSSP – Multi-purpose Senior Services Program
MVA – Motor Vehicle Accident

N:**N/A** – Not Applicable**NIDDM** – Non-Insulin Dependent Diabetes Mellitus**NIFFI** – No Initial Face-to-Face Investigation**NOS** – Not Otherwise Specified**NV** – Non-Verbal**O:****O2** – Oxygen**OT** – Occupational Therapy/ Occupational Therapist/ Overtime**P:****PA** – Physician's Assistant**Para** – Paraplegia**PCP** – Primary Care Provider**PD** – Police Department**PG** – Public Guardian**PH** – Public Health**PHN** – Public Health Nurse**POA** – Power of Attorney**PT** – Physical Therapy/Physical Therapist**PTSD** – Post Traumatic Stress Disorder**Psych** – Psychiatric**PUD** – Peptic Ulcer Disease**PVD** – Peripheral Vascular Disease**Q:****Q** – Every**QD** – Everyday**QH** – Every Hour**QHS** – Every Night**QID** – Four times a day**QOD** – Every other day**Quad** – Quadriplegia**R:****R** – Right**RC** – Regional Center**RCF** – Residential Care Facility**RCH** – Residential Care Home**RCU** – Restorative Care Unit**RN** – Registered Nurse**Rx** – Prescription

RO – Restraining Order
ROM – Range of Motion
RP – Reporting Party
R/O – Rule Out

S:

SA – Suspected Abuser
SC – Subcutaneous
SED – Severely Emotionally Disturbed
SI – Suicidal Ideation
SIS – Sister
SNF – Skilled Nursing Facility
SOB – Shortness of Breath
SOC – Share of Cost
SRO – Single Room Occupancy (Hotel)
SSA – Social Security Administration
SSI – Social Security Supplement Income
SSN – Social Security Number
ST – Speech Therapy/Speech Therapist
SUD – Substance Use Disorder
SW – Social Worker

T:

T/C – Telephone Call
TIA – Transient Ischemic Attack
Thx – Therapy/Therapist
Tx – Treatment

U:

UTI – Urinary Tract Infection
UNK – Unknown

V:

VA – Veterans Administration
VW – Victim Witness Program

W:

W&I Code – Welfare & Institutions Code
w/ - With
w/out – Without

Y:

YO – Year Old

Case Documentation Sample 

5/15/18 – Initial Assessment/Home Visit

Client is being treated for a heel ulcer and had an operation yesterday.

Case Documentation Sample:

5/15/18 – Initial Assessment/Home Visit

Conducted visit at hospital. Client’s daughter, M, was with client when SW arrived. Client is being treated for a heel ulcer and she reportedly had an operation yesterday. SW attempted to speak with client but client did not respond. Client was curled-up in the fetal position. She reportedly has pulled out her IV, so something is wrapped on both her hands to keep this from happening. Daughter also reported brother medicated client’s sores with over the counter medication after consulting with her primary physician. Primary physician reportedly told brother that he can’t treat something he hasn’t seen. Daughter indicated that son was being stubborn and insisted on treating sores himself.

Complete Documentation: Included/Not Included

<ul style="list-style-type: none"> Agency specific demographic needs Required Forms Progress Notes Medical Information Legal Information Financial Information 	<ul style="list-style-type: none"> Personal Notes Alterations Irrelevant Info Judgmental/Inflammatory Statements
--	--

Timely Documentation

- Date and time all entries as soon as possible
 - Home visits
 - Visits to other locations
 - Office visits
 - Phone calls
 - MDTs
 - Emails
 - Photos
 - Audiotapes/Videos
- Add all entries/case activities as soon as possible
- Identify where photos and audiotapes were recorded

Essential Components of Effective Documentation

Clear & Factual	<ul style="list-style-type: none"> ● Restricted to or based on fact.
Objective	<ul style="list-style-type: none"> ● Expressing or dealing with facts or conditions as perceived without distortion by personal feelings, prejudices, or interpretations.
Concise	<ul style="list-style-type: none"> ● Marked by brevity of expression or statement. ● Free from all elaboration and superfluous detail.

Source: Merriam-Webster

Just the Facts...

- Direct and systematic observations
 - What you saw, heard, smelled, felt
 - Temperature of the room, A/C or heat on?
- Information obtained by other professionals
 - Medical diagnosis and prognosis
 - Bank statements
 - Legal documents
- Direct quotes
- Clear language
 - Understood by any reader

Rat Feces Activity

Read the following narrative information carefully:

The APS professional walked into the kitchen and observed rats scurrying under the cabinets when the light was turned on. Feces were all over the floor. The client's daughter said her mother liked rats but she didn't like people. Mrs. Jones said she was surprised that the rats stayed around with so little food in the house, then she walked out of the room.

Handout #4 – Rat Feces Exercise

Read the following narrative information carefully:

The APS professional walked into the kitchen and observed rats scurrying under the cabinets when the light was turned on. Feces were all over the floor. The client’s daughter said her mother liked rats but she didn’t like people. Mrs. Jones said she was surprised that the rats stayed around with so little food in the house, then she walked out of the room.

Now read the following statements about the narrative. Circle “T” if the statement is true, “F” if the statement is false, and “Q” if you do not know if it’s true or false.

- | | | | |
|---|---|---|--|
| T | F | Q | 1. Rat feces covered the kitchen floor. |
| T | F | Q | 2. The client’s daughter didn’t provide her mother with enough food. |
| T | F | Q | 3. It was reported that the client liked people. |
| T | F | Q | 4. The APS professional turned on the kitchen light. |
| T | F | Q | 5. Mrs. Jones liked rats. |
| T | F | Q | 6. Someone turned on a light. |
| T | F | Q | 7. Mrs. Jones doesn’t like people. |
| T | F | Q | 8. There was not very much food in the kitchen. |
| T | F | Q | 9. The client is ambulatory. |
| T | F | Q | 10. Mrs. Jones went to another room after she talked to the APS professional. |
| T | F | Q | 11. Rats went under the cabinets when the light was turned on. |
| T | F | Q | 12. The APS professional interviewed the client and her daughter. |
| T | F | Q | 13. The client’s house was not very clean. |
| T | F | Q | 14. The APS professional walked into the kitchen. |
| T | F | Q | 15. The age of the client was not revealed in this part of the narrative. |
| T | F | Q | 16. Mrs. Jones was hungry. |
| T | F | Q | 17. The narrative mentions three people: The APS professional, the client and the client’s daughter. |

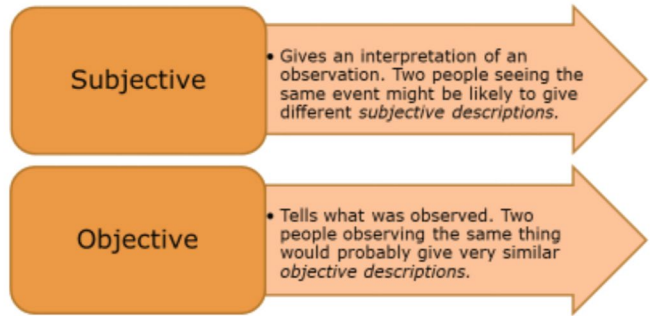

This document was adapted by Oklahoma Dept. Of Human Services, State Office of APS. Permission granted for use in the APS Case Documentation & Report Writing training developed by the APS Training Project – Bay Area Academy/SFSU. June 2008. Revisions made 2019 to provide 2 options to facilitate the activity.

Understanding Supportive Documentation

- What you heard, saw, smelled, or even felt
- Quotes from or copies of hospital, medical, legal, bank records
- Clear language
- **Best Practice Tip** – documenting client medications including name of drug, strength/dosage, and prescribing doctor, expiration date, number of pills in bottle or pill box – it can't be emphasized enough how important this is considering the issues many clients have with their medications.

Subjective vs. Objective Descriptions

Handout #5 - Objective vs. Subjective Language

Subjective description gives an interpretation of an observation. Two people seeing the same event might be likely to give different *subjective* descriptions.

Objective description tells what was observed. Two people observing the same thing would probably give very similar *objective* descriptions.

Are the following words objective or subjective?

depressed

frightened

lonely

acted crazy

crying

nervous

abused

sexually inappropriate

smiled

hostile

did not open door

hit

thin

drooled

bruised

sick

touches other's genitals

disrespectful

Objective Language

“The kitchen smelled like it had not been clean for a month.” Or “When I entered the home, I smelled a foul odor. On entering the kitchen, I saw what appeared to be spoiled meat in the kitchen sink. The meat had turned pale green.”

- Be aware of your own values
 - What pushes your buttons?
- Watch your language
 - No judgmental, inflammatory, loaded words
- Use words like “seems”, “appears”, “as evidenced by”
 - Describe what led you to that conclusion

Clear & Objective Writing Activity

It’s time to practice objective writing!

This activity has two parts:

- First identify why the statement given is NOT objective (is it judgmental or inflammatory?).
- Then rewrite the description using clear, objective, and descriptive language.

Handout #6 – Clear and Objective Language Exercise

Please read the following statements and rewrite them so they will be clear and objective. Be able to explain what was wrong with the original statement.

Example:

Client was filthy and disheveled.

This is subjective and unclear →

Clients arms, legs, and face were caked with dirt. His shirt was stained and unbuttoned. His trousers hung down to his knees. There were urine stains on his pant legs. He had no socks on and only one shoe.

1. Visit to home of 86-year-old double amputee, Mr. Williams. Neighbors complain that he has filled his home with trash, which is attracting vermin. The client's behavior was inappropriate during the visit.
2. Client states her daughter, who is her primary source of care, worries a lot about everything. After interviewing the daughter, she is paranoid.
3. Case closure summary: Despite all I have done for her over the months, the client is manipulative and is never satisfied.
4. After APS report from physician, visit to home of 92-year-old woman who lives alone in the country. Client was inappropriately dressed.
5. Client states he gives his son money since son was laid off six months ago. The son appears to be a drunk.
6. Home visit with client, her adult son, and adult daughter. Both adult children reside with the client. This is a dysfunctional family.

Video Observation Activity

- "Self-Neglect Home Visit"

Handout #7b – Video Observation Activity (Participant Version)

While watching the video record the facts and observations you see. Do you find yourself wanting to jump to infer or make interpretations?

1. What are the **facts**?
 - **Facts** – **something that actually exists; reality; truth.**
Information that can be verified.

2. What are your **observations** (appearance, behaviors, conversations, etc.)?
 - **Observations** – **an act or instance of noticing or perceiving, an act or instance of regarding attentively or watching.**
Things you may see, hear, smell, or feel.

3. Further investigation still is needed, but what can you **infer** from the video thus far?
 - **Infer** – **To derive by reasoning; conclude or judge from premises or evidence: (of facts, circumstances, statements, etc.)**

4. Further investigation is still needed, but did you make any **interpretations** based on what you saw?
 - **Interpretations** – **a conception of another's behavior.**
Combination of facts, observations and inferences and what this means to the APS professional, i.e., a professional opinion.

Concise Documentation

- Get to the point
- Answer: who, what, where, when, why, and how
- Avoid unnecessary and extraneous words
- Make sure info is relevant to the case

Case Record Diet Activity

Cut out excess! Leave in essential nutrients.

- Reduce/edit the following case documentation entry making sure it is clear, objective and complete.
- Cross-out non-relevant information and make additions (if necessary) making sure only the most pertinent information is included.
- *Good review resource - CA APS Standards for Consistency in Case Documentation - Response to Reports: Investiaation*

Handout #8 – Case Record Diet Activity

Cut out excess! Leave in essential nutrients. Reduce/edit the following case documentation entry making sure it is clear, objective and complete.

Directions: Cross-out non-relevant information and make additions (if necessary) making sure, only the most pertinent information is included.

07/10/2019

Home visit:

It was a rainy day and I had a hard time finding the place because some of the roads were closed. Besides that, I got a late start because my supervisor wanted to see me, so that threw me off my schedule.

Client opened the door and let me in. She told me to sit down but all the chairs were covered with stuff. I really didn't want to sit down, but I managed to find a spot where I was comfortable.

Client was wearing a housedress that was a bit too long. It had a small stain on the right sleeve. She was eating a turkey sandwich on white bread with mayonnaise. It looked pretty good.

She told me someone had brought it to her but she couldn't remember who it was. I asked her how she was feeling since her discharge from the hospital. She said she was feeling okay except that the top of her head was on fire and it was probably because of the people next door who put a spell on her.

I looked in the refrigerator (which made me feel like a snoop) and found moldy, orange juice, a 6 pack of beer, eggs, bread, Twinkies, cheese, a jug of wine, apples, and some things with mold on them.

While I was there, the phone rang. It was a friend, checking up on her.

I asked her if she needed anything. She said no and left

**Writing for Court:
Rules of Evidence**

- Admissible Evidence Criteria
 - Relevant: proves or disproves a disputed fact
 - Competent: legally obtained and receivable in court
- Exclusion of Evidence: Reasons
 - Reduce violations of constitutional protections
 - Avoid undue prejudice
 - Prohibit unreliable evidence (e.g. hearsay)
 - Protect valued interests and relationships (e.g. attorney-client privilege)

Victim/Witness Statements

- Document when statement was made and situation under which statement was made
 - Excited Utterances/Spontaneous Statements - valuable form of evidence
- Strengthen veracity of statements
 - Witnessed by coworker
 - Documentation taken at the time statement provided
 - Documentation
 - Timely
 - Accurate
 - Dated

Language for Court Reports

<p>DO:</p> <ul style="list-style-type: none"> * Use "victim states" rather than "victim alleges" * Build case on fact not opinion * Write in a way that can refresh your memory and bring you back to the situation 	<p>AVOID:</p> <ul style="list-style-type: none"> * The word "story" * Labeling: no opinions or biased language

Mrs. Gunther Activity

Mrs. Gunther is a 78 year old woman whose son, Dave, hit her in the face with the telephone when she threatened to call the police on him. He had been threatening her with violence if she did not give him her car keys. Because Dave was drunk, Mrs. Gunther did not want him to drive.

You are the APS professional called to interview Mrs. Gunther and you were first on the scene with the police. The police have now arrested Dave Gunther and you know that you may have to testify in court.

Handout #9b- Apply the Rules of Evidence and Witness Statements Activity

Scenario

Mrs. Gunther is a 78-year-old woman whose son, Dave, hit her in the face with the telephone when she threatened to call the police on him. He had been threatening her with violence if she did not give him her car keys.

Because Dave was drunk,

Mrs. Gunther did not want him to drive. You are the APS professional called to interview Mrs. Gunther and you were the first on the scene with the police. The police have now arrested Dave Gunther and you know that you may have to testify in court.

1. The police officer and I heard Dave shout at his mother, "I should have knocked you out cold."
2. Upon opening the door, Mrs. Gunther cried, "He tried to kill me. I am so happy you are here, can you help me?" Her hands were visibly shaking, her skin was ashen and there was a wound above her left eye that was bleeding. She stated she felt light-headed and I helped her to the nearest chair. Once seated, Mrs. Gunther began to cry and mutter to herself, "What did I do wrong? I raised him right."
3. Dave was practically falling down drunk.
4. Dave shouted at the police officer and me, "You have no business being here and you need to leave immediately." He was red in the face and his hands were clenched into fists. In my opinion, I was in serious danger.
5. Mrs. Gunther alleged that Dave had threatened to hit her if she didn't give him the car keys.
6. Mrs. Gunther's doctor stated she has arthritis and urinary incontinence.
7. Dave was angry enough to seriously hurt his mother.
8. Officer Brown stated that Dave's blood alcohol level was .25 when Dave was arrested.
9. Mrs. Perry, the next door neighbor said, "I overheard Mrs. Gunther and her son shouting at each other at 7:30pm this evening."

APS Report Activity

- Read background information on Mrs. J.
- Analyze the sample documentation.
- Identify any language that is unclear or subjective.
- Collaborate and rewrite the narratives.
- Make sure the report is clear, objective and concise.

Handout #10 – APS Report Writing Activity

Background information

Mrs. J is a German-born 89-year-old widow who has severe dementia and has been hospitalized for 6 months. She has not been discharged because she cannot provide for her own care and nobody is available to help. Now that the application for Medi-Cal has been approved, she needs to be placed in a nursing home. An application for conservatorship is being processed and the request is that the Public Guardian be appointed, since neither the son nor the daughter is willing or appropriate to serve as their mother’s conservator.

Family Situation

Mrs. J has 2 children. The son lives in Virginia and has POA for financial matters. The hospital social worker called him frequently asking for his help in completing the Medi-Cal, but he kept avoiding her. When he finally came to California, he refused to pay any of his mother’s bills and wouldn’t meet with the Public Guardian. He seems like a real loser and this professional suspects that he might have exploited his mother. It’s possible that he used her credit card for motel stays in California, but he denies it. He said he cut up the credit cards but could not prove it.

The daughter isn’t much better. She alleges that her brother is misusing her mother’s money but she herself had credit cards in her mother’s name, which she says she cut up. She says she really cares about her mother, but has not shown herself to be responsible either. She is a long haul truck driver and is never home. She is also very jealous of her brother, since Mrs. J has always treated him very special and wanted him to handle everything. She is afraid of her brother and can’t stand up to him. Worker observed that when they were interviewed in the hospital, he is a bully and she acted submissively.

Assessment of Social Functioning

Mrs. J was interviewed during her stay in the hospital. The first time she seemed okay but said it was too early to answer questions (it was 2 p.m.). She was probably trying to hide the fact that she didn't know the answers. She remembered some things about her childhood but said that she has 6 children. She has 2 children who are living and one who died a while ago. She talked about his as though he was still alive. He short term memory is severely impaired. She seemed depressed and didn't care about the conservatorship.

At the second interview Mrs. J seemed really out of it but she wasn't depressed any more. She was inarticulate and needs help with all her ADLs.

Memory Exercise

Memory Improvement Tips

- Brain Exercises
- General Guidelines (Handout #11)
- Mnemonics: Memory Tools (Handout #12)
 - Imagination
 - Association
 - Location
- Healthy Habits
 - Exercise
 - Manage stress
 - Get enough rest
 - Incorporate healthy foods into diet

Handout #11 – General Guidelines to Improve Memory

In addition to exercising your brain, there are some basic things you can do to improve your ability to retain and retrieve memories:

1. **Pay attention.** You can't remember something if you never learned it, and you can't learn something - that is, encode it into your brain - if you don't pay enough attention to it. It takes about eight seconds of intent focus to process a piece of information through your hippocampus and into the appropriate memory center. So, no multitasking when you need to concentrate! If you distract easily, try to receive information in a quiet place where you won't be interrupted.
2. **Tailor information acquisition to your learning style and use as many senses as possible.** Most people are visual learners; they learn best by reading or otherwise seeing what it is they have to know. But some are auditory learners who learn better by listening. They might benefit by recording information they need and listening to it until they remember it. Even if you're a visual learner, read out loud what you want to remember. If you can recite it rhythmically, even better. Try to relate information to colors, textures, smells and tastes. The physical act of rewriting information can help imprint it onto your brain.
3. **Relate information to what you already know.** Connect new data to information you already remember, whether it's new material that builds on previous knowledge, or something as simple as an address of someone who lives on a street where you already know someone.
4. **Organize information.** Write things down in address books and datebooks and on calendars; take notes on more complex material and reorganize the notes into categories later. Use both words and pictures in learning information.
5. **Understand and be able to interpret complex material.** For more complex material, focus on understanding basic ideas rather than memorizing isolated details. Be able to explain it to someone else in your own words.

6. **Rehearse information frequently and “over-learn”.** Review what you’ve learned the same day you learn it, and at intervals thereafter. What researchers call “spaced rehearsal” is more effective than “cramming”. If you’re able to “overlearn” information so that recalling it becomes second nature, so much the better.

7. **Be motivated and keep a positive attitude.** Tell yourself that you want to learn what you need to remember, and that you can learn and remember it. Telling yourself you have a bad memory actually hampers the ability of your brain to remember, while positive feedback sets up an expectation of success.

Handout #12 – Mnemonic Devices to Improve Memory

The three fundamental principles underlying the use of mnemonics are imagination, association and location. Working together, you can use these principles to generate powerful mnemonic systems.

Imagination: is what you use to create and strengthen the associations needed to create effective mnemonics. Your imagination is what you use to create mnemonics that are potent for you. The more strongly you imagine and visualize a situation, the more effective it will stick in your mind for later recall. The imagery you use in your mnemonics can be as violent, vivid, or sensual as you like, as long as it helps you remember.

Association: this is the method by which you link a thing to be remembered to a way of remembering it. You can create associations by:

- Placing things on top of each other
- Crashing things together
- Merging images together
- Wrapping them around each other
- Rotating them around each other or having them dancing together
- Linking them using the same color, smell, shape, or feeling

As an example, you might link the number 1 with a goldfish by visualizing a 1-shaped spear used to spear it.

Location: gives you two things – first, a coherent context into which you can place information so that it hangs together. Second, a way of separating one mnemonic from another. By setting one mnemonic in a particular town, I can separate it from a similar mnemonic set in a city. For example, by setting one in Wimbledon and another similar mnemonic with images of Manhattan, we can separate them with no danger of confusion. You can build the flavors and atmosphere of these places into your mnemonics to strengthen the feeling of location.

Common types of mnemonic devices include:

- 1. Visual images.**
- 2. Sentences** in which the first letter of each word is part of or represents the initial of what you want to remember.
- 3. Acronyms,** which are initials that creates pronounceable words.

4. Rhymes and alliteration

5. Jokes or even associations using facts, figures, and names you need to recall, because funny or peculiar things are easier to remember than mundane images.

6. "Chunking" information; arranging a long list in smaller units of categories that are easier to remember.

7. "Method of loci": You associate each part of what you have to remember with a landmark in a route you know well, such as your commute to work

Documentation Equipment

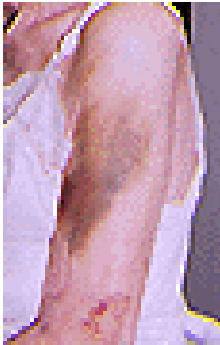

- "Smart" Devices (phones, tablets)
- Computers
- Camera (Handout #13)
- Audio/Video
- Body maps (Handout #14)

Remember to obtain permission from the client before photographing, audio or videotaping

Handout #13 – Photographing Evidence*

<p>When to Take Photographs</p>	<p><i>APS Professionals are encouraged to take photographs of their clients' injuries and adverse health conditions (e.g. severe weight loss due to malnourishment), or environmental conditions whenever:</i></p> <ul style="list-style-type: none"> • <i>Photographs will help document the client's lack of ability to provide self-care for a probate conservatorship case.</i> • <i>A photograph can be more accurately depict the client's injury or situation than can be stated in a brief narrative.</i> • <i>Requested to do so by law enforcement.</i> • <i>There has been a penal code violation that can be documented photographically.</i> <p><i>APS professionals may also take baseline photographs, with the client's permission.</i></p>
<p>Always take an identifying shot</p>	<p><i>Always take at least one photograph showing the whole person, the front of the home or an overview of the scene.</i></p> <ul style="list-style-type: none"> • <i>Rational: Without an identifying shot, it is often difficult to determine who was injured and exactly what part of the body was injured.</i> <p><i>It is also important to show that the interior shots are of the client's home and not another residence.</i></p>
<p>Use the rule of thirds</p>	<p><i>Using the identifying shot, move in by thirds to show the details of the injury or of an environmental condition (e.g. rat droppings, spoiled food, etc.)</i></p> <div style="display: flex; justify-content: space-around; align-items: center;">    </div>

	<p><i>(Notice how difficult it is to determine what extremity is being shown in picture (3) without looking at the identifying shot).</i></p>
<p>Use a "scale" in photographs</p>	<p><i>It is helpful to position an ordinary object of known size (e.g. a ruler, a coin or a pen) next to the object or injury being photograph to determine the size of the item being photographed.</i></p> 
<p>Photograph the injuring object</p>	<p><i>If the object is believed to have caused the injury is identified, it is helpful to photograph the object next to the injury.</i></p> <ul style="list-style-type: none"> • <i>For example, photographing a 1-inch wide leather belt next to a one-inch wide bruise may help to demonstrate that the belt was the cause of the injury.</i> • <i>Please note that in some cases the size of the injuring object will not match due to swelling, movement of the victim when struck or other factors.</i>
<p>Take sharp pictures</p>	<p><i>The following guidelines will help you produce sharp, detailed pictures:</i></p> <ol style="list-style-type: none"> <i>1. Avoid backlighting the person or object as the resulting photograph will be a silhouette without any detail.</i> <i>2. Use side lighting only if you need to show the texture or depth of a wound.</i> <i>3. Almost all documentary photographs should be lit from the front if at all possible. However, it is advisable to take photographs in varying light levels.</i> <i>4. Steady your camera against a table, the roof of a non-running car, etc. and squeeze the shutter slowly so as not to jerk the camera.</i> <i>5. Make sure that your lens is clean, your batteries are charged and the camera is has available memory.</i> <i>6. Shoot most of your photographs from eye level as this makes it easier to judge the perspective of objects in the picture.</i>

<p>Downloading photographs</p>	<p><i>Photographs are to be (1) downloaded to the worker’s computer or a CD and (2) labeled as soon as is practical after being taken.</i></p>
<p>Label electronic media and printed photographs</p>	<p><i>All photographs, electronic files, CD’s or USBs must be labeled with, at a minimum, the client’s name and the date the photographs were taken. In addition, it is desirable to include the name of the person taking the photographs and a description of what was photographed (e.g. the bruise on Mrs. M’s left knee).</i></p> <ul style="list-style-type: none"> • <i>Only one client’s photographs may be stored in any single electronic file.</i> • <i>All photographs should be stored in at least 2 places (e.g. CD/USB and on paper, CD/USB and in an electronic file on the APS professional’s computer).</i>
<p>Maintain the “original” photograph</p>	<p><i>In some cases, photographs may need to be enhanced in order to clearly see some details.</i></p> <ul style="list-style-type: none"> • <i>Enhancements include changes in lightness/darkness, sharpening the focus, cropping the photograph, etc.</i> • <i>Do not enhance the “original” photograph.</i> • <i>Make a copy and then make any necessary enhancements. The changed photograph needs to be labeled as having been enhanced with notations of what changes were made.</i> • <i>The notation should reference the original photograph and both photographs (the original and the enhanced version) should be kept in the same electronic file.</i>
<p>Releasing photographs to other agencies</p>	<p><i>Photographs are part of the APS case documentation and their release is regulated by the same policies as any other part of the case record.</i></p>
<p>Liability Concerns</p>	<ul style="list-style-type: none"> • Document that you received client’s permission (or why photos were taken without client’s permission). • Use Agency issued equipment (e.g. cell phone, tablet, camera). <ul style="list-style-type: none"> ➤ <i>All equipment is subject to subpoena and if using your personal equipment, that means all of your personal information.</i>

Handout #14 – Body Maps (see next page)

These body maps may be photocopied as required.

Please note on the body map any bruising, scars, injuries, red marks or the like, giving as much detail as possible under the prevailing circumstances as to size, color and so on.

Only complete these if the injuries are clearly visible or shown to you freely.

Ethical Issues

- Liability: myths and realities
- Inflation/Deflation/Omission
- Whose life is it anyway?

Handout #15 – Ethics in Documentation

Have you ever:

Inflated (exaggerated, Embellished, Amplified, Overstated, Overstressed, Embroidered),

Deflated (Minimized, Played down, Made light of, Underestimated, Underrated, Diminished) or

Omitted information in a narrative?

Possible reasons:

Liability issues

- Myth: “If I include this....in the narrative, I could be sued.”
- Reality: You are very protected as long as you perform the duties and responsibilities of your position accordingly. You could be held liable if you act out of the scope or neglected your duties and responsibilities.

Results

- Myth: “If I make the situation look a little worse than it is, maybe I can get the conservatorship approved...or maybe I can get that no-good son out of the house...”

Reality: These things can and will backfire on you, usually NOT getting the results you wanted and are not ethical practice. Analyze your intentions: make sure they are not for personal reasons (“I’ll sleep better if she were in a nursing home”). Professionalism will yield the best results!

Confidentiality as Related to Documentation

- Confidentiality in the law
 - Handout #16
 - APS CA Cross-Reporting & Referral Guide 2014
 - CA APS Standards for Consistency in Case Documentation - Response to Reports: Reporting Party
- With whom can you share documentation?
- Who needs to have what?
- Special concerns

Handout #16 – Client Confidentiality: Who, What & Why – California

Cross reporting to law enforcement

- SOC 341 form sent immediately – *Report of Suspected Dependent Adult/Elder Abuse.*
- SOC 343 form sent later – *Investigation of Suspected Dependent Adult/Elder Abuse or equivalent form.*
- Cross Reporting, as per CA Welfare & Institutions (W&I) Code section 15640. (a) (1) – *A county adult protective services agency shall also send a written report thereof within two working days of receiving the information concerning the incident to each agency to which it is required to make a telephone report under this subdivision.*

Working with Multi-Disciplinary Teams (MDT's)

- ❖ Mandates on confidentiality as per CA W & I Code 15633.2A & 15633.2B –
(A) *Persons who are trained and qualified to serve on multidisciplinary personnel teams may disclose to one another information and records that are relevant to the prevention, identification, or treatment of abuse of elderly or dependent persons.*
- ❖ (B) *Except as provided in subparagraph (A), any personnel of the multidisciplinary team or agency that receives information pursuant to this chapter, shall be under the same obligations and subject to the same confidentiality penalties as the person disclosing or providing the information. The information obtained shall maintained in a manner that ensures the maximum protection of privacy and confidentiality rights.*
- ❖ Definition of MDT's – As per APS P&P manual section 33-130.3 –
"Multidisciplinary personnel team" means any team of two or more person who are trained in the prevention, identification, and treatment of abuse of elderly or dependent persons and who are qualified to provide a broad range of services related to abuse of elderly or dependent adults, as defined in Section 15753.5 of the CA Welfare & Institutions code/.

- ❖ Types of MDT's
 - Financial Abuse Specialist Teams (F.A.S.T.) – a multi-disciplinary group of public and private professionals who volunteer their time to advise APS, the Ombudsmen, law enforcement and private attorneys on matters of vulnerable adult financial abuse.
 - Forensic Centers – typically staffed by professionals from legal, medical, social services, and law enforcement agencies who conduct case reviews; in-home medical and mental status, and evidentiary investigation; taped victim interviews; education; consultation; and research. This collaboration allows better understanding, identification and treatment of elder abuse and assists in more efficient ways to successfully prosecute elder abuse cases.
 - Elder Death Review Teams (EDRT) – a team reviews closed cases of elder death that are suspicious or warrant further scrutiny.
- ❖ Who sits on MDT's – There are potential confidentiality issues if it includes community-based agencies, as community members may not be privy to confidential information.

Working with the District Attorney

- Before sharing any records, discuss with Supervisor and follow your agencies protocol.
- Court orders – information shared as per CA W&I Code 15633.5
- Refer to your county's policy for working with the DA as procedures may differ.

Evaluations & Thank You

- Thank you for attending this course and for the important work you do every day protecting older and vulnerable adults in your community!
- Please complete the course evaluation.

Handout #17

APS Documentation and Report Writing

Transfer of Learning Tool

Version 1
May 2019

We create experiences that transform the heart, mind and practice.

APSWI is a program of the Academy for Professional Excellence, and a project of San Diego State University School of Social Work.

The test of a good APS Case Record is when any reasonable and prudent person can read and review the record and draw his/her own conclusion as to what occurred, based on interview statements and supportive evidence.

-CWDA APS Guidelines to Supplement Regulations, 2.7: Guiding Principles for APS Case Documentation

How To Use:

This Transfer of Learning Tool is designed as a companion to NAPSA Core Competency Module #15: APS Case Documentation and Report Writing. It allows APS professionals to practice and polish their documentation skills using a collateral interview from a video clip. It can be used in a variety of settings to include:

- Classroom Training with support from a facilitator
- Individual activity to guide documentation
- Coaching tool for Supervisors to use when working with staff around documentation skills
- Unit Meeting as a group activity with guidance from a Supervisor or Lead Staff

This Transfer of Learning Tool is divided into 3 activities that the learner will complete after watching the [Financial Abuse Allegation, Home Visit: Alleged Perpetrator Interview video](#).

1. Part One: record facts and observations you see and document inferences and interpretations.
2. Part Two: write a Collateral Contact Narrative using clear, factual, objective and concise language and capturing direct quotes.
3. Part Three: answer supplemental questions.

Learning Objectives:

1. Use a collateral interview video to demonstrate the use of clear, concise and objective language while illustrating accurate recall in a contact narrative.
2. After viewing a collateral interview video, accurately identify and differentiate facts and observations.
3. Use a collateral interview video to identify interview techniques that support objective interview questions and demonstrate clarification techniques.

Materials:

The demonstration video "Financial Abuse Allegation, Home Visit: Alleged Perpetrator Interview" can be found at <https://theacademy.sdsu.edu/programs/apswi/apswi-videos/> or <https://www.youtube.com/watch?v=6i9ARePrPpE>

PART ONE

Using the **Financial Abuse Allegation, Home Visit: Alleged Perpetrator Interview**, think about whether the impressions you are receiving are facts, observations, inferences or interpretations. Make notes below for each category.

1. What are the **facts**?
 - **Facts** – something that actually exists; reality; truth.
Information that can be verified.

2. What are your **observations** (appearance, behaviors, conversations, etc.)?
 - **Observations** – an act or instance of noticing or perceiving, an act or instance of regarding attentively or watching. *Things you may see, hear, or smell.*

3. Further investigation is still needed, but what can you **infer** from the video thus far?
 - **Infer** – To derive by reasoning; conclude or judge from premises or evidence: (of facts, circumstances, statements, etc.)

4. Further investigation is still needed, but did you make any **interpretations** based on what you saw?
 - **Interpretations** – a conception of another's behavior.
Combination of facts, observations and inferences and what this means to the APS professional, i.e., a professional opinion.

PART TWO

Using the Financial Abuse Allegation, Home Visit: Alleged Perpetrator Interview, write a collateral contact narrative.

Consider the elements of good report writing:

1. *Accurate, factual, complete, and timely documentation.*
2. *Inclusion of direct quotes.*
3. *Clear, concise, and objective language that will stand up in court, and provide a professional standard for APS casework.*

-CWDA APS Guidelines to Supplement Regulations, 2.7: Guiding Principles for APS Case Documentation

Narrative:

Narrative (continued):

PART TWO (For Facilitator or Supervisor)

Were the following documentation essentials included?:

- *Share specific examples from the written narrative to support these essentials*

- The date the narrative was written
- Setting/location/people present
- Name of Alleged Perpetrator and relationship to victim
- Statements the Alleged Perpetrator made about the allegation or protective issue
- Proper use of abbreviations
- Direct quotes, with context (the questions and the answers)
- Observations including witness' physical and emotional demeanor
- Clear language
- Objectivity

PART THREE**Using the Financial Abuse Allegation, Home Visit: Alleged Perpetrator Interview, discuss or answer the following questions:**

1. What questions did the APS professional use that demonstrated objective interviewing skills?
2. In what ways did the APS professional ask the Alleged Perpetrator to clarify an answer?
3. What would you document about the environment, e.g. what you saw/heard/smelled?
4. Based on the interview, what documents would you attempt to secure and include in your case record?

OUR WHY: **REVOLUTIONIZE
THE WAY PEOPLE
WORK TO ENSURE
THE WORLD IS A
HEALTHIER PLACE.**

Handout #1 – Guiding Principles of APS Case Documentation

Purpose of this Guide:

*APS Guidelines to Supplement Regulations, 2.7.
Effective Date 6/1/2015*

The Protective Services Operations Committee's (PSOC) Consistency Subcommittee developed this Guide to provide assistance with documenting APS Casework in a consistent manner across the State.

This Guide focuses on the purposes and considerations of good report writing and properly maintaining a case record. In addition to this Guide, the accompanying Matrix focuses on the defining elements and standards that constitute appropriate documentation of an APS Case Record.

Elements of good report writing:

1. Accurate, factual, complete, and timely documentation.
2. Clear, concise, and objective language that will stand up in court, and provide a professional standard for APS casework.

What is a good APS Case Record?

The test of a good APS Case Record is when any reasonable and prudent person can read and review the record and draw his/her own conclusion as to what occurred, based on interview statements and supportive evidence.

APS Case Record Requirements:

CA Welfare and Institutions Code 15630-15632 – Requires any mandated reporter to document any incident that appears to be physical abuse (including sexual abuse), abandonment, isolation, abduction, financial abuse, or neglect (including self-neglect, which is defined under Neglect). See definitions under W&IC 15610 to 15610.70.

CDSS Manual of Policies and Procedures 33-805 – Case Record Requirements:

- SOC 341 Form – Report of Suspected Dependent Adult/Elder Abuse
- All written assessments and reassessments
- The written service plan
- Any written visitation plan
- The chronological narrative of contacts made with, or on behalf of, the elder/dependent adult.
- Documentation of any refusal of services including, if known, the reasons for refusal.
- Copies of all documents, relating to the client, which have been received or sent by the adult protective services agency.
- Case closure summary. Documentation all supervisory approvals.
- Any other information or documents that APS believes necessary to maintain proper record of client's case.

Purpose of documentation

- Documentation to establish baseline data.
- Documentation as evidence of involvement – both justification for being involved and the importance of documentation for court.
- Documentation used to show that the case was handled properly.
- Documentation for purposes of consistency – to demonstrate that the case was handled efficiently and that all relevant leads were followed up on.
- To justify the need for staffing and/or funding – through documentation of the work required as well as the complexity of the work done on the case.

Considerations about documentation

- Who will read your documentation? (possibilities, among others, include: agency director, attorneys, judges, law enforcement, other APS staff)
- Where it will end up? (possibilities include: local Board of Supervisors or state officials, law enforcement agencies, conservatorship hearings, civil court actions, criminal court actions)
- Who benefits from good documentation? (possibilities include: the worker, their agency, the legal system, and the client)

Factual documentation should include:

- Date, time, duration of contact, type of contact (include who initiated the contact), with whom, who was present, and location.
- Direct and systematic observations
 - What you saw, heard, smelled
- Information obtained by other professionals
 - Medical diagnosis and prognosis
 - Bank statements
 - Legal documents
- Direct quotes, like spontaneous Statements
 - Carefully document spontaneous statements. A spontaneous statement is a statement made by a witness, including a victim, while under the stress of excitement caused by witnessing a startling event. It is considered truthful because little time has passed to allow the witness to “make-up” a story.
 - A spontaneous statement can only come from a first-hand witness, such as the victim.
 - Document the witness’ physical and emotional demeanor, for example behaviors that show the stress level when making the statement. Document the victim’s physical and emotional demeanor, including sounds and gestures, especially when the victim is non-verbal.
 - Save written interviews with non-verbal victims when done on paper.
 - Document what that person heard from the victim (in quotes), when they heard it, the circumstances in which they heard it.
 - Document spontaneous statements even when made by a person who may be found to be legally incompetent to testify or lack decision making capacity.
- Clear language
 - Understood by any reader
 - Uses limited acronyms and lingo

3 of 5

Definitions of Subjective and Objective

Subjective description gives an interpretation of an observation. **AVOID** Subjective descriptions! Two people seeing the same event might be likely to give different subjective descriptions. Example of subjective documentation:

Client was filthy and disheveled

Judgmental? Inflammatory?

- Two types of statements are inappropriate for good, objective documentation. *Judgmental statements*, or statements that make value judgements about clients and their behavior; and *inflammatory statements*, that utilize negative stereotypes or paint a subjectively negative image of a client, family member, or contact.

Judgmental Examples – The following statements, unless they are quotes from clients or other relevant parties are judgmental and should not be a part of a legal record:

- The client is crazy
- The son is lazy
- The client is a redneck
- The daughter just wants to cause trouble

Inflammatory Examples – These statements, similar to the ones on the previous screen, are not objective and should not be a part of a legal record:

- The client's nephew is a druggie
- The client only wants pain meds to get high
- The client dresses like a hooker
- The client is milking the system
- The mother's relationship is toxic

Objective description tells what was observed. Two people observing the same thing would probably give very similar objective descriptions. This is **APPROPRIATE** documentation. Example of objective documentation:

Client's arms, legs, and face were caked with dirt. His shirt was stained and unbuttoned. His trousers hung down to his knees. There were urine stains on his pant legs. He had socks on and only one shoe.

Case Disposition

The APS Case Record must justify the disposition of the case:

4 of 5

1. Findings – Determine whether the matter is confirmed, inconclusive, or unfound using the Consistency in Findings Matrix and Guide. i.e. including reasons for the finding.
2. Actions taken on the case – Provide details on the actions you took or attempted to take to remedy the abuse (e.g. unsafe situation, exploitation, etc.).
3. Reasons for Closure – For example, services are completed, other agency or resource assuming responsibility, etc.

APS Guidelines to Supplement_Regulations

2.8: The California APS Standards for Consistency in Case Documentation

California APS Standards for Consistency in Case Documentation 2015

Key: **APS** = Adult Protective Services - **Vulnerable Adult** = elder and/or dependent adult, **Abuse** = all types of abuse and neglect/self-neglect, **W&IC** (Welfare & Institutions Code), **MPP** (CDSS Manual of Policies & Procedures), **ACL** (CDSS All-County Letter)

Category	Defining Elements	Standard	What to Document	How to Document
Response to Reports – Immediate W&IC 15763(b) MPP 33-510.1	1. Immediate life threat. or 2. Imminent danger. or 3. Crisis on an existing case. or 4. Local law enforcement request.	Within two hours but no longer than 24 hours from the time the agency received the call.	a. That there was a response within two hours. b. Reasons for not responding within two hours.	a. Time of call and time of arrival. b. Assessment tool used (e.g. SDM) or explanation addressing the threat to life, danger, crisis or agreement from law enforcement.

Acronyms used in this document:

- SDM – Structured Decision Making
- NTD – No Ten Day
- FTF – Face-to-Face (or in-person) meeting with victim
- NIR – No In-Person Response
- SOC – Designated prefix for forms or templates created by the California Department of Social Services
- MDT – Multi Disciplinary Team
- LE – Law Enforcement
- LTCO – Long Term Care Ombudsman
- PG – Public Guardian’s Office
- DA – District Attorney’s Office
- DCA – California Department of Consumer Affairs

Category	Defining Elements	Standard	What to Document	How to Document
<p>Response to Reports – Investigation W&IC 15610.40 MPP 33-110.8 MPP 33-510.4 SOC-343 *CWDA’s APS Guidelines to Supplement Regulations</p>	<p>That activity undertaken to determine the validity of a report of elder or dependent adult abuse.</p>	<ol style="list-style-type: none"> 1. Interview of the alleged victim in private, unless he/she requests otherwise. 2. Interview the suspected abuser if available and if appropriate. 3. Interview others with knowledge of the abuse, e.g. agencies, professionals. 4. Other agencies/ professionals involved in the investigation. 5. APS Worker observations. 6. Document observations that place the worker at risk. 7. Document your findings per Consistency in Findings Guidelines. 	<ol style="list-style-type: none"> 1. Obtained consent to enter the residence if interviewing victim at home, and consent to speak privately. 2. Summarize suspected abuser’s statement. 3. Summarize the individual statements made by others. 4. Agency name and telephone number of contact person. 5. Describe the victim and the victim’s environment as seen by the APS Worker, i.e. living quarters, adequacy of care, financial arrangements; physical evidence of abuse (Clarify indicators* e.g. Physical Indicators, Behavioral Indicators, Sexual Abuse Indicators, Financial Indicators or any other tools used by your county). 6. Criminal activity, animal, filthy hazard, infectious disease, weapons, substance abuse, severe/history of psychological problems, homicidal/ suicidal ideation, violent behavior, sexual harassment. 7. All types of relevant and available evidence or facts gathered (whenever possible from more than one source), and as instructed in the *Consistency in Determining Findings Matrix and Guide. 	<ol style="list-style-type: none"> 1. Date, time, who was present, who left the room, victim’s statement and willingness/ability to cooperate with investigation, quote relevant statements, especially when made spontaneously and under strong emotion. 2. Date, time, who was present, relationship to the client, full name, contact info, role/position, any consistency/inconsistency, and explanation of the events from the suspected abuser’s point of view; quote relevant statements, especially when made spontaneously and under strong emotion. 3. Date, time, the relationship to the client, full name, contact info, role/position, and quote relevant statements. 4. Any findings, opinions, and quote statements made, e.g. the conclusion of a police report, fire department, or Public Health Nurse (PHN), etc. 5. Details of photos taken or obtained during the investigation, and source of information (e.g. documents) gathered by the APS Worker. 6. Details on the risky situation, and why it poses a risk. Include recommendations to mitigate the risk, e.g. don’t go alone, go with law enforcement, etc. 7. Workers should document the specific reasons that led them to their findings for each allegation, not just state their conclusions.

APS Guidelines to Supplement Regulations
 2.8: The California APS Standards for Consistency in Case Documentation

Category	Defining Elements	Standard	What to Document	How to Document
<p>Response to Reports – Reporting Party</p> <p>ACL 01-18 W&IC 15610.55 W&IC 15633 W&IC 15633.5</p> <p>NOTE: Being an MDT member does not automatically grant access to APS confidential information. MDT member must be directly connected to the administration of the APS Program.</p> <p>* Review your County's Policy on how to treat confidential information, e.g. clearing requests with County Counsel.</p>	<p>Types of Reporting Parties (RP):</p> <ol style="list-style-type: none"> 1. Non-mandated RP. 2. Victim/Client as RP. 3. Mandated RP. 4. RP is an agency listed under W&IC 15633.5, i.e. APS, local LE, LTCO, PG, DA, Bureau, Probate Court, and DCA Division of investigation. <p>Please Note: All information retained on behalf of elders and dependent adults by county adult protective services agencies in the administration of the Adult Protective Services Program is confidential.</p> <p>All information contained in the case record as defined in the MPP Division 33, Chapter 8, Section 33-805, is also confidential.</p>	<ol style="list-style-type: none"> 1. May not receive Confidential Information, unless he/she is an MDT member directly connected to the administration of the APS Program. 2. May or may not receive confidential information based on County Policy.* 3. May not receive confidential information, unless he/she is an MDT member directly connected to the administration of the APS Program. 4. May receive confidential information when investigating a case of elder or dependent adult abuse. 	<ul style="list-style-type: none"> • Include any information regarding expression of confidentiality or limitations of sharing information due to the type of RP. *** • Include a summary of the conversation, outcome, and any actions agreed to by either party. <p>*** Example:</p> <p>The mandated reporter is the client's dentist. The dentist's services are not required by the client's service plan. Disclosure of confidential information, including acknowledging that the client is receiving adult protective services, is not directly connected to the administration of the Adult Protective Services Program. Therefore, the adult protective services agency may not release confidential information to the dentist. The adult protective services agency may, however, confirm receipt of the report of known or suspected abuse or neglect.</p>	<p>For every RP:</p> <ul style="list-style-type: none"> • Date and time • Type of contact, e.g. call, email, etc. • Name, agency, title • Phone number/contact information • Purpose or reason of contact, call or email to APS <p>For example:</p> <p>2/28/14 at 3pm Telephone call from Capt. Jones with City Fire Dept (888-555-5555). He responded to the client's home.</p> <p>IMPORTANT</p> <p>Document the report of abuse in a timely manner, or as soon as practically possible based on your County's policy and procedure.</p>

APS Guidelines to Supplement_Regulations
2.8: The California APS Standards for Consistency in Case Documentation

Category	Defining Elements	Standard	What to Document	How to Document
<p>Assessment – Capacity Issues W&IC 15636 W&IC 15657.6 W&IC 15701.25 W&IC 10850(e) MPP 33-110.8 Probate Code 811, 812, 813, 1821, 1881 Civil Code Sec 39 Probate Code 2250(a)(b)</p> <p><u>Objectives:</u> Initiation and reason for involuntary case planning detailing how to remediate the unsafe situation; and when appropriate, to establish the facts of good cause for appointment of the temporary guardian or temporary conservator. [Probate Code 2250(b)].</p>	<p>Whether or not the vulnerable adult is incapacitated to the extent that he/she cannot give nor deny consent to protective services</p> <p>a) because of suspected mental impairment, or b) because he/she is an endangered adult.</p>	<p>a) Suspected mental incapacity: 1. Ability to understand relevant information, e.g. rights, responsibilities. 2. Ability to understand and appreciate a situation and its likely consequences. 3. Ability to manipulate information rationally, i.e. to reason and understand risks, benefits and alternatives. 4. Ability to evidence a choice by communicating verbally or through any other means.</p> <p>b) Endangerment: 1. The victim is at risk of serious injury or death due to abuse, or is substantially unable to manage his or her financial resources or to resist undue influence, and 2. The victim demonstrates the inability to take self-protective action.</p>	<p>a) Suspected Incapacity: 1. Information to be understood includes nature of client’s condition and situation, nature and purpose of proposed remediation of the situation, possible benefits and risks of that remediation, and alternative approaches (including no intervention) and their benefits and risks. 2. Clients who do not acknowledge their abusive or precarious situation (often referred to as “lack of insight”) are likely to remain in unsafe situations. 3. Focuses on the process by which a decision is reached, not the outcome of the client’s choice, since clients have the right to make “unreasonable” choices. 4. Frequent reversals of choice because of psychiatric or neurologic conditions may indicate lack of capacity.</p> <p>b) To document endangerment: 1. Document the victim’s refusal for protective services in light of whether the victim is an endangered adult or not. 2. Document the risk of serious injury or death, or the substantial inability to manage his or her financial resources or to resist fraud or undue influence. 3. Document how the victim demonstrates the inability to take action to protect himself or herself from the current and/or future consequences of remaining in that situation or condition.</p>	<p>a) Suspected Incapacity: 5. Document what the client said in his/her own words about: A. The problem with his/her situation now. B. The recommended remediation, and its possible benefits and risks. C. Any alternative remedies and their risks and benefits. D. The risks and benefits of no intervention. 6. Document what the client said about: A. Their view of their situation. B. There needing to be some type of assistance or intervention, and what is it likely to do. And his/her reasons. C. What clients believe will happen if there is no assistance or intervention? D. Why the clients think the recommendations have been made?</p> <p>7. Document what the client said about: A. How did the client decide to accept or reject the recommendations? B. What makes the chosen option better than the alternative option(s)?</p> <p>8. Document the client’s responses to the following: A. Have you decided whether to follow the recommended remediation? B. Can you tell me what that decision is? C. [If no decision] What is making it hard for you to decide?</p> <p>b) How to document endangerment: 1. Document the worker’s assessment of the risks and danger to the client. 2. Document the determination of whether or not to institute involuntary services.</p>

APS Guidelines to Supplement Regulations
2.8: The California APS Standards for Consistency in Case Documentation

Category	Defining Elements	Standard	What to Document
<p>Service Plan – Development and Monitoring</p> <p>W&IC 15763 MPP 33-535</p> <p>Please Note: If the client cannot consent to the Service Plan, please refer to your County’s Policy on providing involuntary protective services.</p>	<p>A service plan is a set of activities developed with client input and acceptance to alleviate identified problems utilizing counseling, monitoring, followup, and reassessment.</p> <p>The purpose of a service plan is to give direction to efforts to alleviate or reduce identified problems or risks, by specifying actions to be taken and resources to be utilized, and bring about changes in the lives of victims and to provide a safety net to enable victims to protect themselves in the future.</p>	<p>a) To identify the problems to be alleviated based on the assessment.</p> <p>b) To develop the desired outcomes and strategies to be used in attaining those outcomes.</p> <p>c) To identify resources and supports to be used in order to attain the outcomes and stabilize the situation.</p> <p>d) The services identified in the service plan shall be delivered only with the consent of the elder or dependent adult.</p> <p>e) Monitoring and followup.</p>	<p>a) The client’s perception of the problem and concerns and the APS Worker’s perception of the problem and concerns. The adult protective services worker shall ensure the client’s input in the development of the service plan and shall discuss with the client the voluntary nature of the adult protective services program.</p> <p>b) The specific goals and the steps to attain these goals, and how each step addresses the protective issue. Steps to attain these goals should include:</p> <ul style="list-style-type: none"> • Documenting any counseling on protective issues by APS Worker. • Documenting any expert counseling (e.g. finances, psychotherapy, healthcare, insurance) for clients and significant others to alleviate the identified problems and to implement the service plan. <p>c) Name of each resource (e.g. agency, service) and support (e.g. relative, friend, neighbor), and their role in stabilizing the situation.</p> <p>d) The adult protective services worker shall document in the case record the client’s agreement to the service plan or shall request the client to sign a document that indicates the client’s willingness to receive the services in accordance with the service plan.</p> <p>e) Document actions taken to monitor and evaluate the effectiveness of the plan in addressing the protective issues.</p>

California Penal Codes Commonly Used in APS Case Documentation

PC 368 (a) through (k) –Crimes Against Elder or Dependent Adults:

368. (a) The Legislature finds and declares that crimes against elders and dependent adults are deserving of special consideration and protection, not unlike the special protections provided for minor children, because elders and dependent adults may be confused, on various medications, mentally or physically impaired, or incompetent, and therefore less able to protect themselves, to understand or report criminal conduct, or to testify in court proceedings on their own behalf.

(b) (1) any person who knows or reasonably should know that a person is an elder or dependent adult and who, under circumstances or conditions likely to produce great bodily harm or death, willfully causes or permits any elder or dependent adult to suffer, or inflicts thereon unjustifiable physical pain or mental suffering, or having the care or custody of any elder or dependent adult, willfully causes or permits the elder or dependent adult to be placed in a situation in which his or her person or health is endangered, is punishable by imprisonment in a county jail not exceeding one year, or by a fine not to exceed six thousand dollars (\$6,000), or by both that fine and imprisonment, or by imprisonment in the state prison for two, three, or four years.

(2) If in the commission of an offense described in paragraph (1), the victim suffers great bodily injury, as defined in Section 12022.7, the defendant shall receive an additional term in the state prison as follows:

(A) Three years if the victim is under 70 years of age.

(B) Five years if the victim is 70 years or older

(3) If in the commission of an offense described in paragraph (1), the defendant proximately causes the death of the victim, the defendant shall receive an additional term in the state prison as follows:

(A) Five years if the victim is under 70 years of age

(B) Seven years if the victim is 70 years of age or older.

(c) Any person who knows or reasonable should know that a person is an elder or dependent adult and who, under circumstances or conditions other than those likely to produce great bodily harm or death, willfully causes or permits any elder or dependent adult to suffer, or inflicts thereon unjustifiable physical pain or mental suffering, or having the care or custody of any elder or dependent adult, willfully causes or permits the person or health of the elder or dependent adult to

be injured or willfully causes or permits the elder or dependent adult to be placed in a situation in which his or her person or health may be endangered, is guilty of a misdemeanor. A second or subsequent violation of this subdivision is punishable by a fine not to exceed two thousand dollars (\$2,000), or by imprisonment in a county jail not to exceed one year, by both that fine and imprisonment.

(d) Any person who is not a caretaker who violates any provision of law proscribing theft, embezzlement, forgery, or fraud, or who violates Section 530.5 proscribing identity theft, with respect to the property or personal identifying information of an elder or a dependent adult, and who knows or reasonably should know that the victim is an elder or a dependent adult, is punishable as follows:

(1) By a fine not exceeding two thousand five hundred dollars (\$2,500), or by imprisonment in a county jail not exceeding one year, or by both that fine and imprisonment, or by a fine not exceeding ten thousand dollars (\$10,000), or by imprisonment pursuant to subdivision (h) of Section 1170 for two, three, or four years or by both that fine and imprisonment, when the moneys, labor, goods, services, or real or personal property taken or obtained is of a value exceeding nine hundred fifty dollars (\$950).

(2) By a fine not exceeding one thousand dollars (\$1,000), by imprisonment in a county jail not exceeding one year, or by both that fine and imprisonment, when the moneys, labor, goods, services, or real or personal property taken or obtained is of a value not exceeding nine hundred fifty dollars (\$950).

(e) Any caretaker of an elder or a dependent adult who violates any provision of law proscribing theft, embezzlement, forgery, or fraud, or who violates Section 530.5 proscribing identity theft, with respect to the property or personal identifying information of that elder or dependent adult, is punishable as follows:

(1) By a fine not exceeding two thousand five hundred dollars (\$2,500), or by imprisonment in a county jail not exceeding one year, or by both fine and imprisonment, or by a fine not exceeding ten thousand dollars (\$10,000), or by imprisonment pursuant to subdivision (h) of Section 1170 for two, three, or four years, or by both that fine and imprisonment, when the moneys, labor, goods, services, or real or personal property taken or obtained is of a value exceeding nine hundred fifty dollars (\$950).

(2) By a fine not exceeding one thousand dollars (\$1,000), by imprisonment in a county jail not exceeding one year, or by both that fine and imprisonment, when the moneys, labor, goods, services, or real or personal property taken or obtained is of a value not exceeding nine hundred fifty dollars (\$950).

(f) Any person who commits the false imprisonments of an elder or a dependent adult by the use of violence, menace, fraud, or deceit is punishable by imprisonment pursuant to subdivision (h) of Section 1170 for two, three, or four years.

PC 368 Definitions

Elder:

(g) As used in this section, "elder" means any person who is 65 years of age or older.

Dependent Adult:

(h) As used in this section, "dependent adult" means any person who is between the ages of 18 and 64, who has physical or mental limitations which restrict his or her ability to carry out normal activities or to protect his or her rights, including, but not limited to, persons who have physical or developmental disabilities or whose physical or mental abilities have diminished because of age. "Dependent adult" includes any person between the ages of 18 and 64 who is admitted as an inpatient to a 24-hour health facility, as defined in Sections 1250, 1250.2, and 1250.3 of the Health and Safety Code.

Caretaker:

(i) *As used in this section, "caretaker" means any person who has the care, custody, or control of, or who stands in a position of trust with, an elder or a dependent adult.*

(j) Nothing in this section shall preclude prosecution under both this section and Section 187 or 12022.7 or any other provision of law. However, a person shall not receive an additional term of imprisonment under both paragraphs (2) and (3) of subdivision (b) for any single offense, nor shall a person receive an additional term of imprisonment under both section 12022.7 and paragraph (2) or (3) of subdivision (b) for any single offense.

(k) In any case in which a person is convicted of violating these provisions, the court may require him or her to receive appropriate counseling as a condition of probation. Any defendant ordered to be placed in a counseling program shall be responsible for paying the expense of his or her participation in the counseling program as determined by the court. The court shall take into consideration the ability of the defendant to pay, and no defendant shall be denied probation because of his or her inability to pay.

368.5. (a) Local law enforcement agencies and state law enforcement agencies with jurisdiction shall have concurrent jurisdiction to investigate elder and dependent adult abuse and all other crimes against elder victims and victims with disabilities.

(b) Adult protective services agencies and local long-term care ombudsman programs also have jurisdiction within their statutory authority to investigate elder and dependent adult abuse and criminal neglect, and may assist local law enforcement agencies in criminal investigations at the law enforcement agencies' request, provided, however, that law enforcement agencies shall retain exclusive responsibility for criminal investigations, any provision of law to the contrary notwithstanding.

Other Important Penal Codes:

PC 187 – Murder

PC 211 – Robbery

PC 237 (b) – False imprisonment; elder or dependent adult (apply to isolation situations)

PC 240 – Assault

PC 242; 243 – Battery

PC 243.25 – Battery against person of elder or dependent abuse; punishment
