

Description

In this interactive and dynamic introductory training, participants learn how to build and manage effective teams, maintain healthy teams, and assess your team overall. Building and Managing Effective APS Teams is a training program that is part of the National APS Supervisor Core Curriculum. It is one of four training modules that will be offered consecutively this fiscal year focused on supporting the core competency in Teambuilding and Individual Development.

These modules include Building and Managing Effective APS Teams (Module 3A), Supervisor as Trainer (Module 3B), Onboarding New Staff (Module 3C), and Coaching and Mentoring (Module 3D).

Please note: While one is not a pre-requisite for another, it is recommended that the modules be completed in the order listed.
